PROFESSIONAL SUMMARY

Highly skilled Full Stack Developer with 2+ years of experience building scalable web applications using Java, Spring Boot, and React. Skilled in REST APIs, microservices, SQL databases, and cloud-native application development. Hands-on experience with DevOps practices and deployment on Amazon Web Services, including CI/CD and containerized applications.

TECHNICAL SKILLS

Languages: Java 17+, JavaScript (ES6+), SQL, Python, HTML5, CSS3

Core Concepts: OOP, Data Structures, Algorithms, Design Patterns, Multithreading, Memory Management, Project Management

Frontend: React.js, Angular, HTML, CSS, JavaScript, Redux, Material UI

Backend: Spring Boot, Spring MVC, Spring Security, JPA/Hibernate, RESTful APIs, Microservices

Cloud / DevOps: Docker, Kubernetes, Jenkins, GitHub Actions, AWS (EC2, ECS, ECR, RDS)

Databases: MySQL, PostgreSQL, Oracle SQL, Redis, MongoDB

Messaging: Apache Kafka, RabbitMQ

Tools: Git, Maven, Postman, JUnit, Mockito, IntelliJ IDEA, JIRA, Agile/Scrum

EXPERIENCE

Pragadas Technologies

March 2025 – Present

Software Developer | Java · Spring Boot · React.js · MySQL · Docker · AWS

Hyderabad, India

- Developed and maintained enterprise-grade HRMS and WMS web applications using Java, Spring Boot, React.js, and MySQL, ensuring high responsiveness and cross-platform optimization.
- Designed and developed back end website applications and RESTful APIs using Spring Boot and JPA/Hibernate for payroll and inventory modules with optimized SQL queries.
- Collaborated across Agile sprint cycles with graphic designers and QA teams to reduce feature delivery turnaround by 40% through structured code reviews and API payload debugging.
- Managed project lifecycles from conception to finished product, reducing bug resolution time by 50% through systematic root-cause analysis across REST endpoints.

AI Variant

May 2024 – January 2025

Java Developer Intern | Java · Spring Boot · React.js · MySQL · Docker · Kubernetes · Jenkins

Remote

- Built and deployed a cloud-native distributed E-Commerce platform with 6 independent Spring Boot microservices, managing the full stack from front end interactions to back end servers.
- Automated a full Jenkins CI/CD pipeline for Dockerized deployments on AWS, achieving zero-downtime and auto-scaling for high-traffic web applications.

PROJECTS

Multi-Tenant HRMS (Full-Stack SaaS HR Platform) | Java · Spring Boot · React.js · MySQL · Docker · AWS EC2 · Jenkins

- Built a multi-tenant HRMS platform using Spring Boot and React.js, delivering secure tenant isolation and responsive real-time dashboards for employee management..
- Implemented fine-grained RBAC with Spring Security and JWT across 3 role tiers, ensuring data isolation in MySQL databases
- Managed the full project lifecycle from design to deployment via Jenkins CI/CD on AWS EC2 with Docker containerization.

Document Intelligence (Spring AI + RAG) | Java · Spring AI · Apache Kafka · OpenAI API · pgvector · PostgreSQL

- Developed a Java-native implementation for document intelligence, utilizing Spring AI for chunking and embedding via OpenAI APIs.
- Integrated vector storage in pgvector (PostgreSQL) to perform semantic similarity search and grounded response generation.

ACHIEVEMENTS

- Employee of the Quarter: Awarded twice at Pragadas Technologies for outstanding ownership of critical modules, full-stack delivery, and cross functional collaboration
- IBM SQL Relational Databases Certification: Completed foundational to intermediate SQL concepts including complex queries, joins, indexing, and normalization
- Agile Delivery Recognition: Recognized for strong ownership, problem-solving, and timely delivery of full-stack enterprise application features in Agile development environments at Pragadas Technologies.

EDUCATION

Jawaharlal Nehru Technological University, Hyderabad, Telangana

August 2019 – July 2023

Bachelor of Technology in Computer Science and Engineering
